#### ➤ SHOPS

**Prada** - 10, La Croisette – Hôtel Majestic – **350 m<sup>2</sup>** (opening le 8 mai 2010)

The Prada store in Cannes, designed by architect Roberto Baciocchi, covers a totale surface of 350 square meters on two levels (ground floor and basement) and offers the Prada collections of ready-to-wear, bags, accessories and shoes for both women and men. It features one entrance and three windows.

At the ground floor you will find the bags and accessories area for women followed by the women's shoes and clothes displays. Ivory 'saffiano' leather as well as mirrors cover the walls of this area. Crystal and bronze metal furnishing complete the design. A sophisticated black marble staircase takes to the basement dedicated to the men's area and to the VIP room. The men's area features walls covered by ebony wood to confer richness and elegance. The furniture is in raw iron and crystal evoking the image of a museum.

Velvet seating and rich display cases complete the design. The VIP area is a new and elegant space, very neutral in color: the walls and ceiling are covered by ivory saffiano leather, the floor is camel carpeting and the seating in camel velvet.
