

SUSTAINABLE DEVELOPMENT, CORPORATE SOCIAL RESPONSIBILITY QUALITY SAFETY ENVIRONMENT POLICY

OUR VALUES: ETHICS - RESPECT - COHESION - PROFESSIONALISM - CREATIVITY - PERFORMANCE - AMBITION

In an increasingly competitive economic context, our aim is to differentiate our services through a quality and sustainable development policy.

Our vision for the Palais des Festivals et des Congrès of Cannes is to: «contribute to the success of our company, by becoming the preferred service partner of our clients and stakeholders thanks to our excellence in quality, health & safety, environment and our dialogue with all our stakeholders».

Our Quality Safety Environment (QSE) policy has become an important driver for improving our performance. We are committed to continuing along this path and giving greater meaning to the work of our staff through this approach.

This policy is one of the major focus areas of our strategy: its goal is to improve customers and stakeholders' satisfaction, preserve our natural environment and safeguard the health and safety of staff by concentrating on the following objectives:

To reach these fundamental objectives, we have made the commitment to:

- Implement the Sustainable Development policy.
- Identify and respect the legal and statutory obligations and the needs of our customers and stakeholders.
- Maintain a process of continuous improvement.
- Make available the resources needed to achieve our vision, and our objectives.
- Communicate this policy to all stakeholders and make sure that it is known and understood.

Every employee is responsible for applying these rules, encouraging their best practice and adopting appropriate behaviours.

I am personally involved at every stage of this process and, together with Yuri GOLOVKO, the Sustainable Development Manager, shall be monitoring the ensuing action plan and its effectiveness on a daily basis, through weekly meetings, executive committees and at every other opportunity. Finally, I would like to ask you, fellow workers, for your total support in complying with this Corporate Social Responsibility and Quality Safety Environment policy. Please make sure you apply it on a daily basis so that we achieve continuous progress towards our goal of excellence.

Cannes, March 29th 2016

Didier VESCOVI
Chief Executive Officer
