WELCOMING THE WORLD SUSTAINABLY

A PURPOSE-DRIVEN COMPANY

In 2022, we changed our articles of association to become a purpose-driven company. This approach involves giving our company an ethical and responsible dimension. It means the company is committed to creating value for all its stakeholders while taking account of social and environmental issues.

PARTICIPATIVE AND TRANSPARENT GOVERNANCE

The Mission Committee includes external figures recognised for their expertise, as well as our internal stakeholders. It makes it possible to monitor the actions undertaken by the company.

A RAISON D'ÊTRE Welcoming the world sustainably!

3 PILLARS

CONNECT

*at the heart of our global village,
people from all over the world,
because creating links is at the
heart of our mission*

TAKING CARE

*Of those around us and our
surroundings*

REVEAL

*talents from all over the world,
because we breathe the "air of
the times" and the currents that
flow through it*

A CSR APPROACH

ISO 9001 (Quality) certified

ISO 18788 (Safety and security)

ISO 20121 (Responsible Events)

A RESPONSIBLE SITE

IN THE HEART OF A UNIQUE NATURAL SETTING, THE COAST, THE ISLANDS AND THE HILLS

Interior and exterior spaces redesigned in an eco-responsible way, demonstrating a social and ethical commitment to limiting the impact on our environment©.

OUR COMMITMENT TO RESPONSIBILITY IS BROKEN DOWN INTO 3 ISSUES IN LINE WITH OUR MISSIONS, PRINCIPLES AND VALUES:

1.

REDUCING OUR ENVIRONMENTAL IMPACT

By managing our waste sustainably, reducing our energy consumption and working with responsible partners.

2.

ENSURING A GOOD WELCOME AND WORKING CONDITIONS

By ensuring people's health and safety, supporting everyone's professionalism and raising awareness among our partners.

3.

ENSURING THE SUSTAINABILITY OF THE COMPANY

By modernising our infrastructure, launching and maintaining new trade shows and supporting local associations and other players.

100% GREEN ELECTRICITY

The electricity we use comes exclusively from renewable sources. Indeed, every kilowatt-hour we consume is accompanied by a guarantee of origin, certifying that this energy has been produced from renewable sources.

AUDITORIUMS

The spaces are hired with fixed equipment (sound and lighting). As outside staff are not authorised to handle the technical equipment provided in the hall, unless an exemption has been granted, it is incumbent on the Palais des Festivals et des Congrès to recruit and manage them. These services are subject to a quote.

Any specific work: pyrotechnics, working at height, hanging and lifting, laser, smoke (when using automatic equipment) must comply with regulations in force and be the subject of a project submitted for approval and control by the safety officer.
