

SUSTAINABLE DEVELOPMENT & CORPORATE SOCIAL RESPONSIBILITY POLICY

OUR VALUES: ETHICS - RESPECT - COHESION - PROFESSIONALISM - CREATIVITY - PERFORMANCE - AMBITION

We are moving forward in an increasingly competitive economic context, with the emergence of new conference centres. The political situation, both nationally and internationally, has an impact on all our activities, business tourism, leisure tourism and cultural programming. The development of new products, wider canvassing, and continual adaptation to customer expectations are needed now more than ever.

Our vision for the Palais des Festivals et des Congrès of Cannes is to:

“Contribute to the success of our company, by becoming the preferred service partner of our clients and stakeholders thanks to our excellence in quality, health & safety, environment and our dialogue with all our stakeholders”.

We are following a digitization and modernization strategy, in order to become the best-connected «Eco-responsible Palais» in the world, as part of an active safety policy and with the aim of having our services stand out, based on our sustainable development and corporate social responsibility policy. Our policy is a major lever for improving our performances and is based on the following objectives:

To reach these fundamental objectives, we have made the commitment to:

- Implement the Sustainable Development policy.
- Identify and respect the legal and statutory obligations and the needs of our customers and stakeholders.
- Maintain a process of continuous improvement.

Every employee is responsible for applying these rules, encouraging their best practice and adopting appropriate behaviours.

I am personally involved at every stage of this process and, together with Youri GOLOVKO, the Sustainable Development Manager, shall be monitoring the ensuing action plan and its effectiveness, through weekly meetings, executive committees and at every other opportunity.

Finally, I would like to ask you, fellow workers, to apply this policy on a daily basis so that we achieve continuous progress towards our goal of excellence.

Cannes, (Date) ...
Didier VESCOVI
